ABSTRACT OF THE DISCLOSURE

Disclosed is a shaped container bottom for containing a plurality of curved snack pieces where the container bottom comprises a bottom panel. The bottom panel has a concave-shape about a major axis of the container. The concave bottom panel conforms to the shape the snack piece without the snack piece resting upon the bottom panel.

Also disclosed is a shaped container bottom for containing a plurality of curved snack pieces where the container bottom comprises a bottom panel. The bottom panel further comprises a plurality of flat portions and a bottom panel center disposed between the flat portions. The bottom panel center conforms to the shape of the snack pieces.
